Clingendael waarschuwt voor Amerikaanse clouddominantie

Europese overheden moeten er voor waken dat ze te afhankelijk worden van Amerikaanse cloudaanbieders. De EU maakt zich hard voor cloudsoevereiniteit, maar in de praktijk zijn het de Amerikanen die de markt domineren. Vertrouwen, beveiliging en verscheidenheid zijn daarbij ver te zoeken. Analisten van de Haagse denktank Clingendael zwengelen de discussie weer aan.

Clingendael warns against American cloud dominance

European governments must be careful not to become too dependent on American cloud providers. The EU is committed to cloud sovereignty, but in practice it is the Americans who dominate the market. Trust, security and diversity are hard to come by. Analysts at the Clingendael think tank in The Hague are reopening the debate.
