

Accelerating the adoption of the Spanish Data Economy and Gaia-X by way of Experimentation

Daniel Sáez-Domingo

Technology Transfer Director at ITI

Gaia-X AISBL BoD

President Gaia-X Hub Spain

ITI INVESTIGATE
TO INNOVATE

gaia-x

 Hub España

#GaiaXSummit23

Data Driven economy needs

Tech. Convergence

Regulations &
Standards

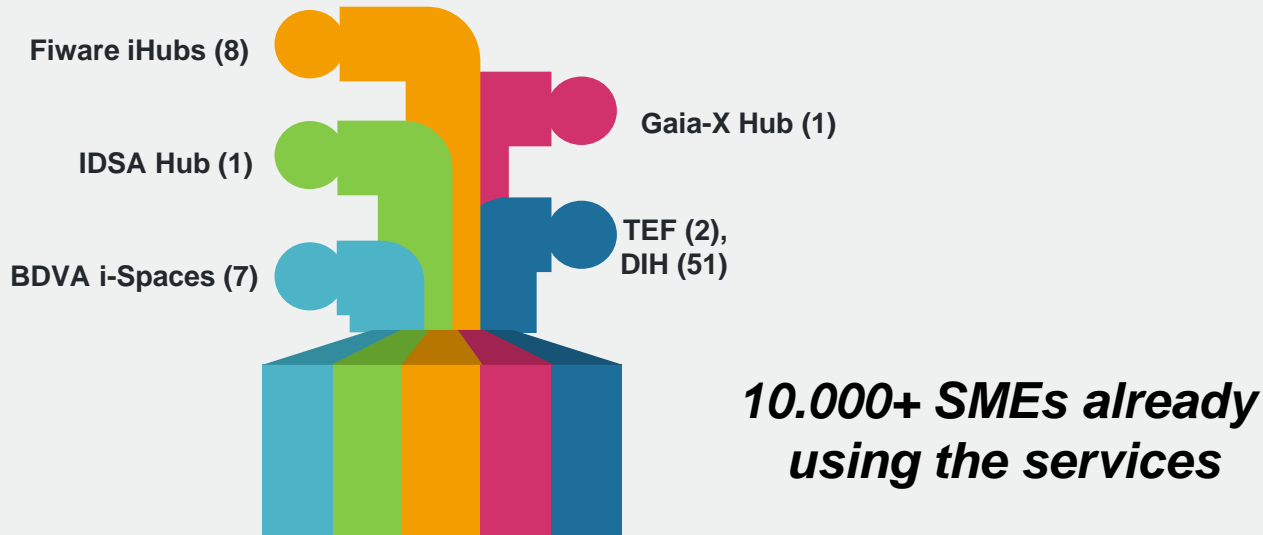

Awareness

Experimentation

Spanish experimentation strength (*TRUST*)

Powerful infrastructures, knowledge, tools, data, ... ready to provide services for the experimentation and innovation with Data and AI:

Data & AI sandbox

Accelerators of data driven innovation

Access point for SMEs and start-ups to the data economy

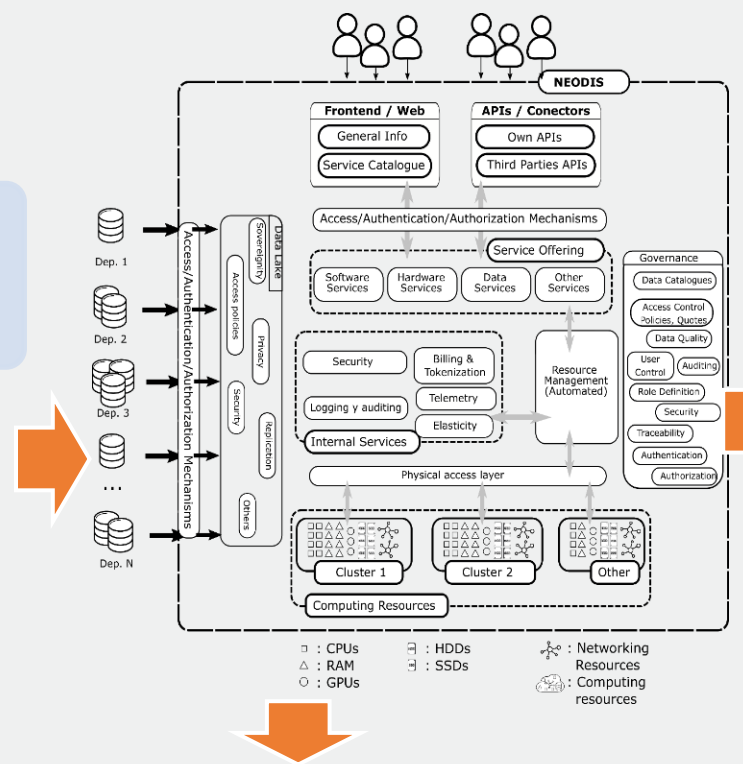

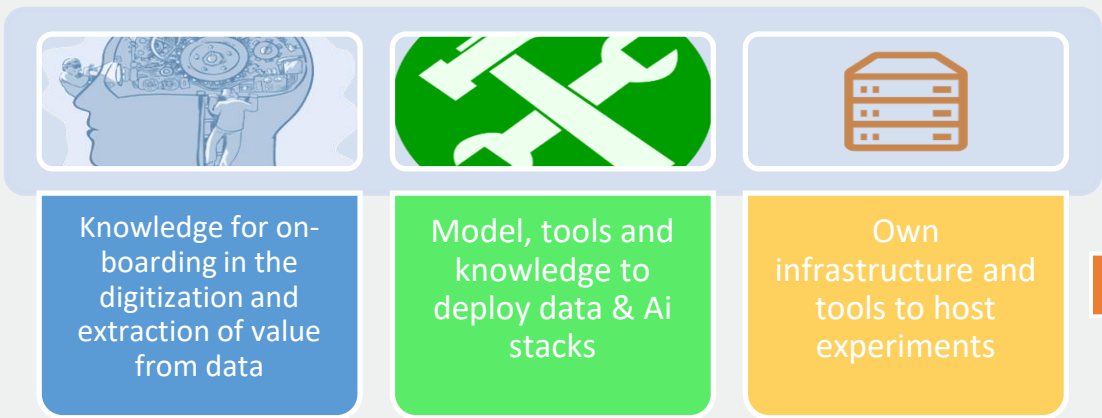

AI and data ethics

Training hub for data and AI

How does it work?

- **Enriched node** providing:
 - Data Quality
 - Data Governance
 - Data Ingestión
 - Data Storage
 - Data Sharing
 - Data Processing
 - Access control and security
- **A Data Space Lab in itself**

Access to personalized resources

- Infrastructures
- Datasets
- Tools

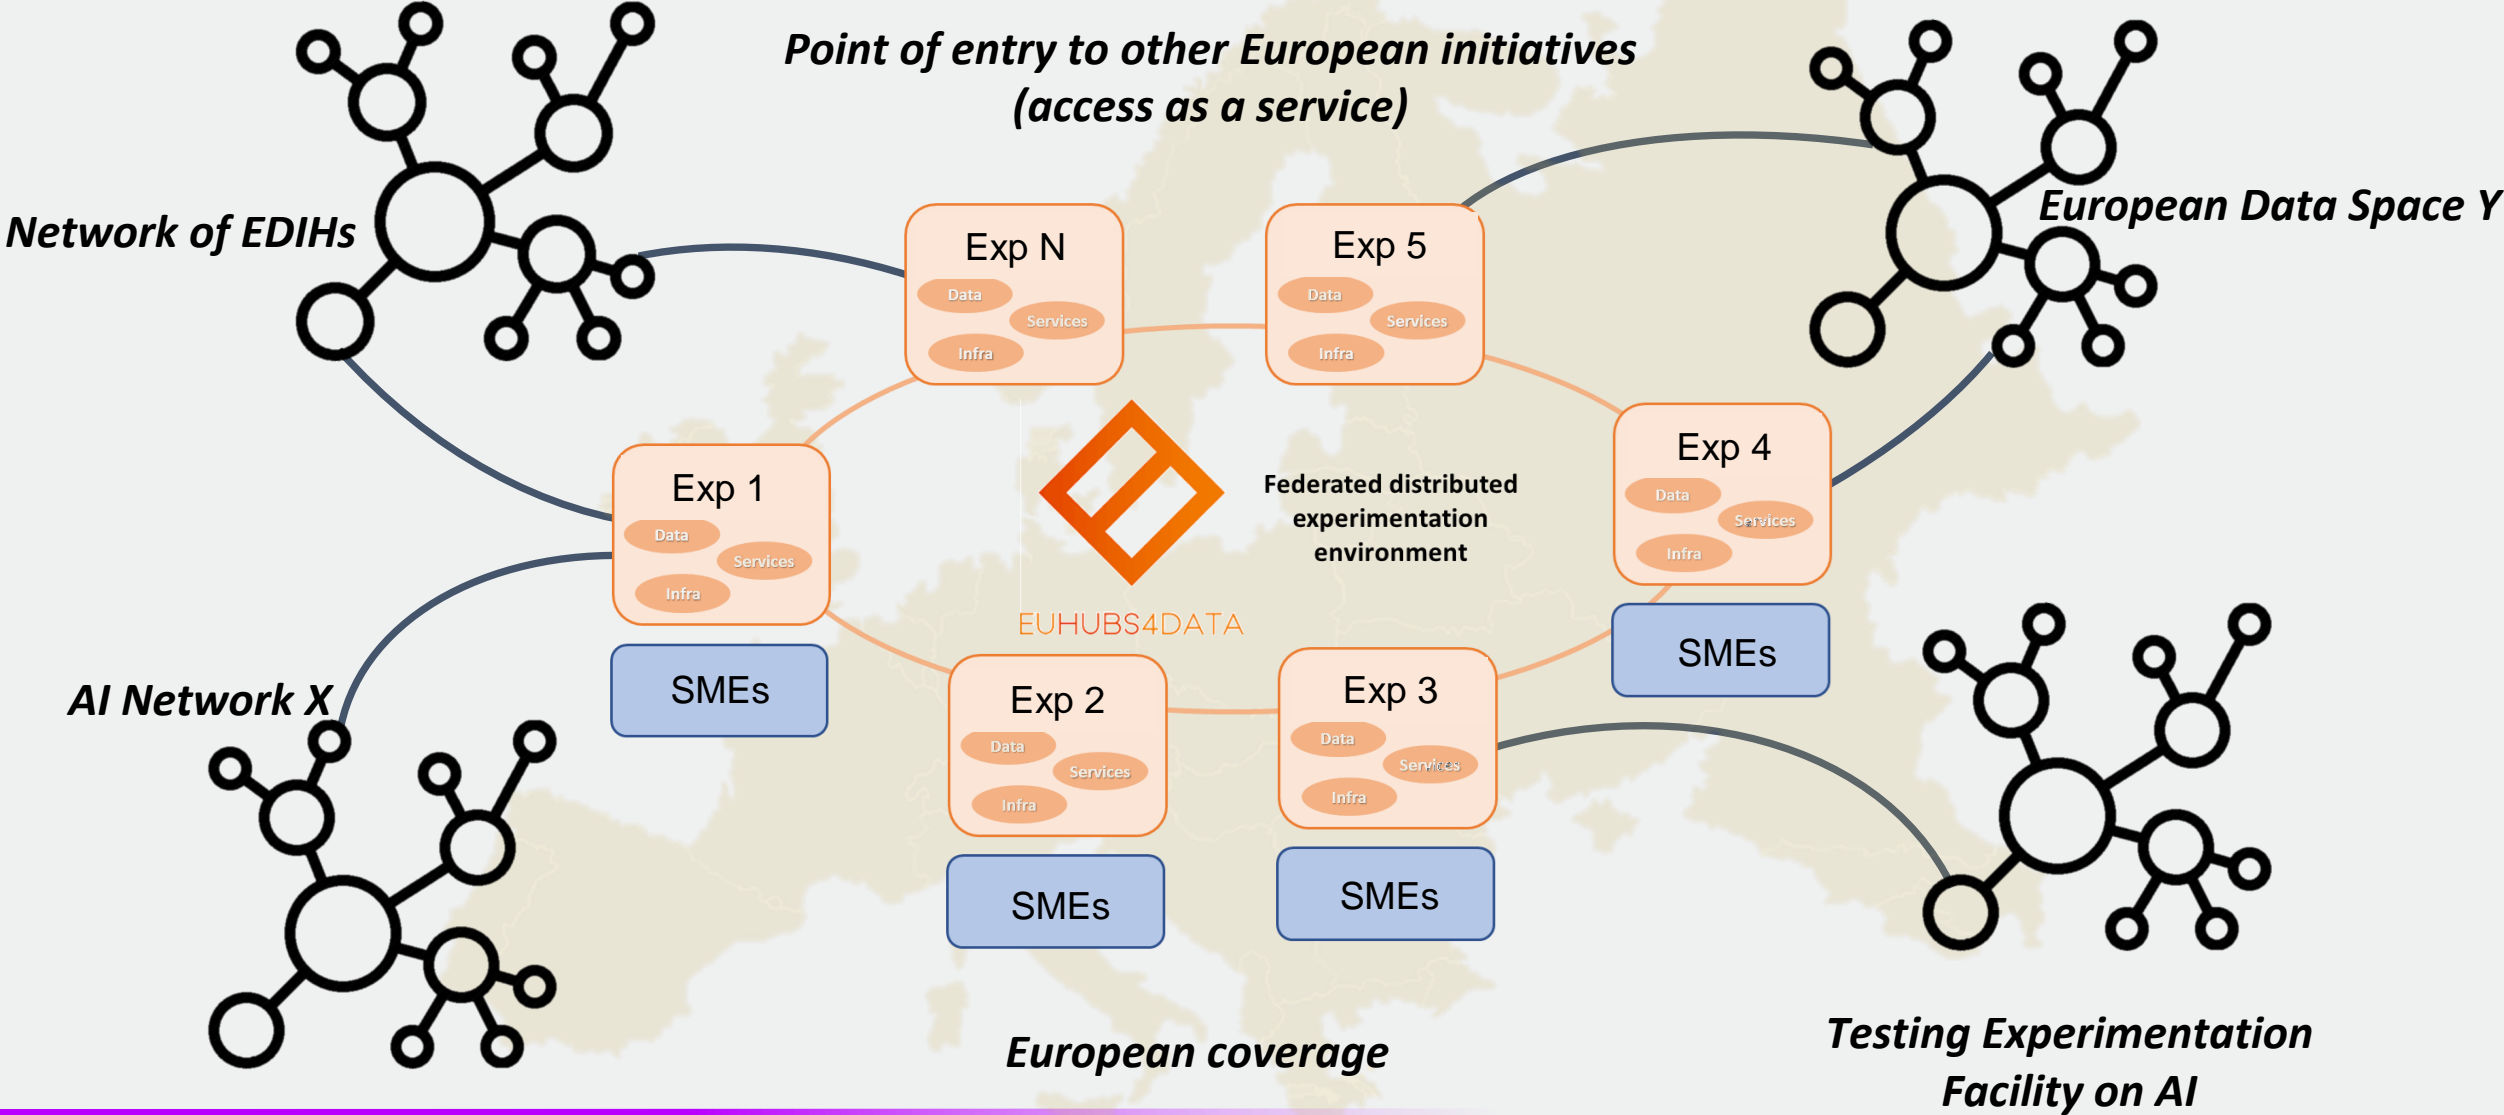

Access to services

- Data Processing
- Data Management
- Business
- Legal
- Ethics

Skills

- Technical
 - Infrastructure deployment
 - Data governance
- Business

Network of connected experimentation sites

Thank you!
