Perché Aruba sta ripensando il design dei data center

Cresce il campus di data center più grande d'Italia . Lo scorso 30 novembre Aruba – il principale cloud provider italiano e società da anni ...

Why Aruba is rethinking data center design

Italy's largest data center campus grows. On 30 November Aruba – the main Italian cloud provider and a company that has been active for years in sectors such as web hosting, domain registration and certified e-mail – inaugurated two new systems in its Global cloud data center in Ponte San Pietro, in the province of Bergamo.
