Market pull

Gaia-X Strategy 2023 - Priorities

1) GXDCH DEPLOYMENT – **"Be in Control, Remove roadblocks, Deliver!"**

- Agile sprint-based development for TAGUS and LOIRE releases
- Initial GXDCH nodes deploy by Q1, expand & enhance through Q4
- Communication and support for members adoption of GXDCH

2) MEMBERSHIP ENGAGEMENT - **"Engage, Expand, Members First!"**

- Address members needs and expectations
- Encourage and Leverage members & projects contribution
- Create member's differentiators for business advantage

3) MARKET ADOPTION - **"Plan for Tangible Market Adoption Objectives!"**

- 'Users' inclusion of Gaia-X compliance in their procurement rules
- 'Providers' publishing of Gaia-X compliant services and marketplaces
- Expansion of Gaia-X Projects and federation's participants

Gaia-X Strategy 2023 – Market Enablers

Digital Clearing House – just compliance?...not really

market-x

GXDCHs create concentrators of Gaia-X Demand & Offer to enable an economy of adoption services for the benefits to all

Technology Providers: Will make visible their compliant services

The best GXDCH: Will attract more adopters through richer and simplified services...

Technology Users: Will search and the services they need

Local Users: Will find local providers offerings

GXDC

SMB and Startups: Will make their distinctive skills and solutions visibile

Local Providers: Will match local users needs

System Integrators: Will support projects with the necessary Gaia-X skills

CAB: Will integrate to provide for automated verifications

Consulting Firms: Will support designing data-driven business models
