Nederlandse partijen bouwen testomgeving voor Gaia-X clouddiensten

De Nederlandse Gaia-X hub, TNO, BIT, Intermax, Info Support, SURF en AMS-IX gaan samen een nationale Gaia-X testomgeving bouwen. Clouddienstverleners kunnen er onderzoeken hoe ze kunnen voldoen aan de Europese cloudstandaarden, specificaties en regels van Gaia-X. Het uiteindelijke doel is om gebruikers in de EU beter grip te laten krijgen op hun eigen data. De verwachting is dat de testomgeving in mei 2023 operationeel is.

Dutch parties are building a test environment for Gaia-X cloud services

The Dutch Gaia-X hub, TNO, BIT, Intermax, Info Support, SURF and AMS-IX are going to build a national Gaia-X test environment together. Cloud service providers can investigate how they can comply with the European cloud standards, specifications and rules of Gaia-X. The ultimate goal is to

give users in the EU a better grip on their own data. The test environment is expected to be operational in May 2023.

Centre of Excellence for Data Sharing and Cloud gelanceerd

Het Centre of Excellence for Data Sharing and Cloud (CoE-DSC) is officieel gelanceerd. Het CoE-DSC bouwt voort op de inzet en resultaten van de Data Sharing Coalition (DSC), de werkgroep data delen van de Nederlandse AI Coalitie (NL-AIC) en de Gaia-X Hub NL. Alle partijen uit de genoemde coalities zijn ook onderdeel van dit initiatief, dat geleid wordt door TNO. Door krachten te bundelen ontstaat er één centrale plek die bedrijven helpt bij datadeel- en cloud vraagstukken. Daarnaast gaat het initiatief zorgen voor meer vertrouwen in cross-organisatieel data delen en (internationale) samenwerking faciliteren. Het Ministerie van Economische Zaken en Klimaat maakt het CoE-DSC financieel mogelijk.

Center of Excellence for Data Sharing and Cloud launched

The Center of Excellence for Data Sharing and Cloud (CoE-DSC) has been officially launched. The CoE-DSC builds on the efforts and results of the Data Sharing Coalition (DSC), the data sharing working group of the Dutch AI Coalition (NL-AIC) and the Gaia-X Hub NL. All parties from the aforementioned coalitions are also part of this initiative, which is led by TNO. By joining forces, one central place is created that helps companies with data sharing and cloud issues. In addition, the initiative will provide more confidence in cross-organizational data sharing and facilitate (international) collaboration. The Ministry of Economic Affairs and Climate Policy makes the CoE-DSC financially possible.
