### **Europäisches Datenprojekt Gaia-X nimmt Fahrt auf**

Nach ersten Schritten auf dem Weg zu einer souveränen und vertrauenswürdigen europäischen Dateninfrastruktur soll das Projekt Gaia-X nun Fahrt aufnehmen. Der Startschuss für die breite Umsetzung wird bei der Veranstaltung Market-X Mitte März in Wien gegeben. Als einer der "Leuchttürme" gilt das österreichisch-deutsche Forschungsprojekt "EuProGigant".

### **European data project Gaia-X is picking up speed**

After the first steps have been taken on the way to a sovereign and trustworthy European data infrastructure, the Gaia-X project is picking up speed. The starting signal for broad implementation will be given at the Market-X event in Vienna in mid-March. The Austro-German research project "EuProGigant" is considered to be one of the "beacons".

### **Factbox: China moves towards digital economy dream with national data bureau**

China has announced plans for a national data bureau, describing it as part of an effort to coordinate data resources in the country and to achieve a vision of "digital China" conceived by President Xi Jinping.

Europe has raised the issue of where data is hosted and processed as a matter both of sovereignty and security and in 2020 launched cloud computing platform Gaia-X as an alternative to U.S. cloud computing providers.
