Description for your website, article or newsletter:

Tech-X Conference & Hackathon

Connect with people, hack on real-life end-to-end scenarios, contribute to solutions for current technological challenges and learn how to use existing technologies during Tech-X Conference & Hackathon!

This spring, join us for Tech-X Conference & Hackathon in Bilbao, Spain, organised by Gaia-X and the OSS Community. On **3 & 4 May 2023** at Azkuna Centroa, in a booming tech region of Europe, you can participate in Gaia-X Workshops and Presentations on the latest technologies, a two-day hackathon with the Gaia-X Open-Source community, and network with a range of businesses, Gaia-X HUBs, verticals, Lighthouse projects and members.

Each participant can choose which of the **three segments** of the two-day Tech-X Conference & Hackathon they want to attend to get the most out of their time.

1. **Tech-X Conference.**
Demos and hands-on practical examples of solving technical challenges
2. **Hackathon #6 Think It. Code It. Win It.**
Contribute to the implementation of real-life end-to-end scenarios, which leverages the Gaia-X Open-Source Software and the Trust Framework to win!
3. **Gaia-X Technology Workshops**
Learn how to use the technologies on which Gaia-X is built.

Our Goals:

- Increase Gaia-X knowledge in the community, encourage collaboration and enable participants to make use of current open-source implementations and codebase.
- Develop tools that handle Self-Descriptions.
- Use and further develop the Gaia-X Compliance Service and Gaia-X Federation Services.
- Check & validate the state of Gaia-X (regarding architecture, specifications, technology, processes and general terms & conditions) via the creation of service offerings and integration of use cases leveraging the Gaia-X Architecture.

From Proposal to Session

The call for participation for the Tech-X Conference & Hackathon #6 is now open. The focus will be on the technologies that build and use the Gaia-X Framework.

Everybody is invited to suggest **Workshops**, **Presentations**, or **Hacking sessions** for the event. To learn more about the event's goals and how to get involved, please follow the structure, reach out to the organisers or directly create/add your proposal to the proposal page.

The proposal deadline is 31 March 2023.

Get in Touch:
For discussions related to the event, you can use the Gaia-X Open-Source Software Community mailing list at oss-community@list.gaia-x.eu. You can subscribe to it via the Postorius link. Other ways to get in touch can be found on our community page.

Venue:
Join us in the Azkuna Centroa, an iconic cultural and entertainment centre of Bilbao honoured with the "Global Awards of Excellence". Azkuna Centora is a historical site from the early twentieth century. Now integrating the Basque region's traditional legacy with modernism to create a one-of-a-kind venue for networking and creative working.

Azkuna Centroa - Arriquíbar Plaza, 4, 48010 Bilbo, Bizkaia, Spain
