Assinter in visita al Global Cloud Data Center di Aruba: confronto su partnership pubblico-privato, infrastrutture IT made in Italy, cloud e sicurezza

Una delegazione di Assinter Italia guidata dal direttore Generale Maria Cammarota, fa visita al Global Cloud Data Center di Aruba, il data center campus più grande d'Italia e uno dei più green del nostro Paese, localizzato a Ponte San Pietro, nei pressi di Bergamo. Giorgio Girelli, General Manager di Aruba Enterprise, ha affermato l'obiettivo di garantire un cloud provider europeo, motivo per il quale Aruba è membro di Gaia-X dal giorno 0.

Assinter visited the Global Cloud Data Center of Aruba: dialogue on public-private partnership, IT made in Italy infrastructure, cloud and security

A delegation of Assinter Italia led by General Manager Maria Cammarota visited the Global Cloud Data Centre of Aruba, the largest data centre campus in Italy and one of the greenest in our country, located in Ponte San Pietro, near Bergamo. Giorgio Girelli, General Manager of Aruba Enterprise, affirmed the objective of ensuring a European cloud provider, which is why Aruba has been a member of Gaia-X since the very beginning.

EQS-News: Advanced Blockchain: Portfolio company peaq with significant progress and decentralized mobility demos at IAA Mobility with Gaia - X

Advanced Blockchain's portfolio company peaq together with Gaia-x moveID unveiled last week at the IAA in Munich a decentralized IoT function for parking and charging vehicles. Both companies demonstrated how the future of the Internet of Things and the Economy of Things will be based on decentralization and on-chain automation. At the event a peer-to-peer parking and charging scheme utilizing IDs on the Peaq ecosystem was demonstrated. Advanced Blockchain is the major shareholder of peaq.

Cloud en France: un marché trop concentré et verrouillé (rapport)

Trois hyperscalers captent 80 % de la croissance du cloud public en France. Plusieurs éléments participent à cette concentration – dont les crédits cloud et les frais de transfert. Comment réintroduire plus de compétition ? Le point sur les options proposées par le rapport de l'Autorité de la concurrence.

Cloud market in France: too concentrated and closed

Three hyperscalers capture 80% of public cloud growth in France. There are several components to this concentration – including cloud credits and transfer fees. How do we reintroduce more competition? Update on the options proposed by the report of the Competition Authority.
