Open source in the cloud

The use of open source in government institutions has a tradition and is becoming increasingly important. Even eGovernment initiatives are not spared from the strong penetration of open source software. This means that IT service providers need very special qualities.

Gaia-X monte en puissance avec un catalogue de 500 services cloud conformes à ses standards

La fédération CISPE des fournisseurs de cloud en Europe met en ligne un catalogue de plus 500 services compatibles avec les règles de transparence, d'interopérabilité ou de sécurité de Gaia-X. De quoi faciliter aux utilisateurs le choix du cloud adapté à leurs besoins. La section française de Gaia-X s'attaque maintenant la mise en place d'espaces sécurisés d'échange de données.

Gaia-X is gaining momentum with a catalog of 500 cloud services that meet its standards

The CISPE federation of cloud providers in Europe is putting online a catalog of more than 500 services compatible with Gaia-X's transparency, interoperability or security rules. Enough to make it easier for users to choose the cloud suited to their needs. The French section of Gaia-X is now tackling the establishment of secure data exchange spaces.

Identités numériques de GAIA-X : une avancée significative grâce à la collaboration entre l'association eco, DATEV et T-Systems

La digitalisation est en constante évolution, et la confiance dans la sécurité des identités numériques est cruciale pour stimuler ce processus. C'est dans cette optique que T-Systems, a récemment signé un accord avec l'association eco - Association of the Internet Industry et DATEV, troisième plus grand fournisseur de logiciels d'entreprise en Allemagne. Cette collaboration stratégique vise à révolutionner l'écosystème des identités numériques en fournissant des solutions sécurisées et innovantes.

GAIA-X digital identities: a significant step forward thanks to the collaboration between the eco association, DATEV and T-Systems

Digitalisation is constantly evolving, and trust in the security of digital identities is crucial to driving this process. It is with this in mind that T-Systems recently signed an agreement with the eco association - Association of the Internet Industry and DATEV, the third largest provider of business software in Germany. This strategic collaboration aims to revolutionise the digital identity ecosystem by providing secure and innovative solutions.
