France and Germany increasingly drift apart on digital sovereignty of cloud sector

The recent announcement of “a new, independent cloud for Europe” by Amazon Web Services (AWS) has underlined the growing divergence between the positions of Paris and Berlin regarding digital sovereignty in the cloud sector.

Geld im Spiel: Wie Tokens und TANGO das Banking wandeln

Die gesamte EU-Verwaltung kann dank der sechsjährigen Vereinbarung Cloud-Dienste von Oracle abrufen. "Strengsten Datenschutz" will der US-Konzern gewährleisten.

Money in the game: How tokens and TANGO are transforming banking

Whether vouchers, coupons or tokens – tokens are not only in demand in games, but also in the financial sector. How the TANGO project is now tokenizing asset flows and digitising data flows to realise open banking concepts based on Gaia-X.

Digitale ID: Durchbruch im Gesundheitswesen

Die Digitalisierung der Gesellschaft erfordert Sicherheit, wer wer ist. Dafür braucht es digitale Identitäten, und daran wird gearbeitet.

Digital ID: breakthrough in healthcare

The digitalisation of society requires security about who is who. This requires digital identities, and work is underway on this.

Einführung elektronischer Identitäten geht schrittweise voran

Die Einführung elektronischer Identitäten (eID) geht schrittweise voran. Die Telekom-Tochtergesellschaft T-Systems hat nach der Gematik-Zulassung für die erste eID im Gesundheitswesen nun auch den Zuschlag für die Entwicklung der sogenannten ID-Wallet für die Gaia-X-Föderationsdienste (GXFS) erhalten.

The introduction of electronic identities is progressing gradually

The introduction of electronic identities (eID) is progressing gradually. After receiving Gematik approval for the first eID in the healthcare sector, the Telekom subsidiary T-Systems has now also been awarded the contract to develop the so-called ID wallet for the Gaia-X federation services (GXFS).

T-Systems fournit des identités numériques pour le projet cloud 'Gaia X'

La filiale de Deutsche Telekom T-Systems fournira à l'avenir un "ID Wallet" pour la preuve d'identité numérique dans le cadre du projet cloud européen "Gaia X". T-Systems a annoncé mercredi à Berlin que le client était l'association éco de l'économie Internet pour le compte du ministère fédéral de l'économie. L'entreprise a également été chargée de construire une solution ID pour le fournisseur de logiciels professionnels Datev, spécialisé dans les conseillers fiscaux.

T-Systems provides digital identities for the 'Gaia X' cloud project

Deutsche Telekom subsidiary T-Systems will provide an "ID Wallet" for digital identity as part of the European cloud project "Gaia X". On Wednesday, T-Systems announced in Berlin that the customer was the Internet Economy Association eco on behalf of the Federal Ministry of Economic Affairs. The company was also tasked with building an ID solution for professional software provider Datev, which specializes in tax advisors.
