Sicherer Austausch von Finanzdaten ist möglich

In Frankfurt wurden nach drei Jahren Arbeit die Use Cases des FBDC-Projektes vorgestellt. Bei allen geht es um den sicheren Austausch von Finanzdaten. Wirtschaft, Wissenschaft und Behörden sollen dafür eine sichere, die Datensouveränität wahrende Infrastruktur erhalten.

Secure exchange of financial data is possible

After three years of work, the use cases of the FBDC project were presented in Frankfurt. All of them are aiming at securing the exchange of financial data. Business, science and authorities should receive a secure infrastructure that maintains data sovereignt.

Kommentar: Digitale Souveränität – nicht kaufen, entwickeln!

Aus Angst, dem Ausland ausgeliefert zu sein, wollen Deutschland und Europa unabhängige Clouds errichten. Schade, dass man dafür bei den großen Konzernen kauft.

Comment: Digital sovereignty – don't buy, develop!

Germany and Europe want to build independent clouds and avoid being at the "mercy" of foreign countries. It's a shame that you buy from the big corporations for this.
