Digitale Souveränität in der Cloud

In der digitalen Transformation gewinnt der Begriff "digitale Souveränität" an Bedeutung. Er bezieht sich darauf, die Kontrolle über digitale Angelegenheiten zu bewahren und Abhängigkeiten von externen Dienstleistern zu vermeiden.

Digital sovereignty in the cloud

In digital transformation, the term "digital sovereignty" is becoming increasingly important. It refers to maintaining control over digital matters and avoiding dependencies on external service providers.

Föderierte Datenräume – die nächste Stufe der Digitalisierung

Viele Unternehmen nutzen heute Unmengen von Daten, bislang allerdings meist innerhalb firmeninterner Silostrukturen. Föderierte Datenräume sollen helfen, durch kontrollierten Datenaustausch mit Dritten ungenutzte Potenziale zu erschließen.

Federated data rooms – the next level of digitalisation

Many companies today use vast amounts of data, but so far mostly within internal company silo structures. Federated data rooms are intended to help unlock unused potential through controlled data exchange with third parties.

Eine Plattform für super-sensible Daten

T-Systems hat die Google Distributed Cloud Hosted (GDC Hosted) gestartet. Sie soll „Kunden mit höchsten Souveränitätsanforderungen in Deutschland“ zufriedenstellen können. Wir haben bei Dr. Daniel Holz, VP EMEA North bei Google Cloud, und Dr. Andreas Greis, T-Systems' SVP Google Powerhouse, nachgefragt, wie das gehen soll.

A platform for super-sensitive data

T-Systems has launched Google Distributed Cloud Hosted (GDC Hosted). It should be able to satisfy “customers with the highest sovereignty requirements in Germany”. We have discussed how this project should work with Dr. Daniel Holz, VP EMEA North at Google Cloud, and Dr. Andreas Greis, T-Systems' SVP Google Powerhouse.

Die German Edge Cloud wechselt den Eigentümer - teilweise

Der Provider WIIT hat von German Edge Cloud den Bereich „Edge and Cloud“ übernommen. Das auf Datenschutz und Produktions-Management spezialisierte Tochterunternehmen der Friedhelm-Loh-Group hatte einige Marktvorteile an Großanbietern und Hyperscalern verloren. Nur eine enge Integration der zugekauften Bereiche hält laut Analysteneinschätzung die Bestandskunden bei der Stange.

The German Edge Cloud changes ownership – partially

The provider WIIT has taken over the “Edge and Cloud” area from German Edge Cloud. The subsidiary of the Friedhelm Loh Group, which specialises in data protection and production management, had lost some market advantages to large providers and hyperscalers. According to analysts, only close integration of the acquired areas will keep existing customers on board.
