Gaia-X Voices: Use Case Testimonials

The purpose of the testimonial campaign is to highlight a particular use case, which is defined as 'a specific setting in which two or more **participants** use a **data space** to create value (business, societal or environmental) from **data sharing**'.

Answering the questions below, please explain how Gaia-X implementation can positively impact your experiences of data sharing and collaboration in a trustworthy environment.

1. Introduction

a. **Please provide a title for your use case.**
b. **Using simple terminology, provide a brief overview of your organisation and the industry you operate in?**
c. **Please provide more details of the main stakeholders and the roles they play in designing the use case** *[a simple diagram is recommended].*

2. Context & Challenge

a. **Can you provide a brief description of the problem that your use case addresses?** *[Please provide some context, however, save the benefits for later as they will be addressed below].*

3. Solution description

a. **Can you describe the solution implemented to address the identified challenges?** *[Please include a functional diagram of whom does what].*
b. **What role did technology play in the development and deployment of the solution?**

4. Implementation

a. **How was the solution integrated into the use case organisation's existing systems or processes?**
b. **Were there any significant milestones or challenges during the implementation phase?** *[Using the table below, outline the challenges addressed. Only include checkmarks in the relevant fields and assign a level of difficulty from low to high].*

Stakeholder (if multiple)	Description of challenge	Dimensions					Level of Difficulty experienced (low, medium, high)
		Design of the use case	Governance of participants	Development of elements & apps	Integration of systems & participants	Using the use case	

5. Benefits & Impact

a. **What measurable benefits have the use case design stakeholders observed since the implementation?**

[Using the table below, outline the benefits gained. Only include checkmarks in the relevant fields and assign each benefit to a specific use case role (as per 1c)].

Description of Benefit	Dimensions				Role this benefit applies to
	End users	Legal & Governance	Functional & Participant related	Technological	

b. **What are the benefits for the end users? *[Please be as specific as you like].***

6. Added Value through Gaia-X

a. **Describe the alignment you seek with the Gaia-X vision.**

b. **Tell us about the alignment of your current architecture and technology stack with the Gaia-X technology model, and if there are any convergence needs.**

7. Use case scaling

a. **What would be the requirements and steps for a new member (user, provider, or service providers) to join your use case?**

b. **What other sectors could benefit by making use of the resources in this use case?**

8. Next steps

a. **What are the next steps of your project in relation to the current versions of the Gaia-X architecture, and/or Policy Rules Compliance Document, and/or GXDCH implementation?**
