Hackathon #8 (2025)

14:45 – 15:45

- **Christoph F. Strnadl**
  CTO, Gaia-X AISBL

In partnership with gaia-x Hub Spain

ICT TECHNOLOGY CENTER

Hackathon #8 (2025)

Interesting prizes and a lightweight set of rules

Participation Conditions

- must concern the Gaia-X ecosystem and not only a single project
- should use Gaia-Compliance Document 24.11 (v2, *Loire*) and GXDCH for compliance validation.
- might improve Gaia-X experience, on-boarding or help spread knowledge within the community or they can remediate technical debt, improve Gaia-X components quality or address business needs that are not yet fulfilled
- Most of the implementation must be done during the hackathon

#GaiaX #MarketX25 #TechX25

Hackathon #8 (2025)

Evaluation Scheme

Creativity

- *Novelty:* how new is the idea (*versus* the old)
- *Uniqueness:* Is the idea different? Does it stand out from the baseline?
- *Technical Complexity*: Is the project technically challenging? Does it utilize complex technologies?

Value & Impact

- *Business value*: What are potential benefits? Does the hack solve a real-world problem?
- *Social impact:* Are there potential societal benefits?
- *Usefulness:* Is the hack practical? Will someone use it?

Functionality

- *Implementation:* Does the hack work as intended?
- *Usability*: Is the project easy to use and navigate?
- *Execution:* How well is the hack executed?

Community Impact & Presentation

- What positive community impact may this create?
- How well did the team communicate?
- How well did the team respond to questions?

scoring: **1–5** points (5 is best score) per criterion per judge
