Our Gaia-X Timeline

Operational Core Principles

Accountability

A clear structure on the election of roles and responsibilities defined in order to achieve accountability.

Transparency

A clear transparency about the Modus Operandi, incl. rules & regulations, decisions, deliverables, milestones and results provided in order to ensure a clear transparency

Inclusiveness & Harmonization

Member's people will be enabled to contribute. This will be ensured by commitment as well as access to all information.

Open & Democratic

All Groups shall be constantly open to new members. Everyone will be able to contribute as per fixed rule criteria and democratic voting rights.

Autonomy & Uniformity

Each Group will be allowed to autonomy to a certain degree. Overarching there will be a harmonization between all levels.

Empowerment of contributors

An empowerment of the Groups is necessary.

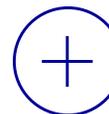

Group Work Continuity

Many Committees and Working Groups exits since the beginning of Gaia-X. The continuity of their work is of great importance to ensure their successful delivery and target accomplishment.

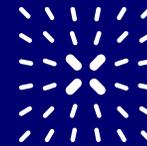

Communication

Measures will be taken to enable and foster a clear association-wide communication. A very important element is the SME communication.

Continuous improvement

The association follows a continuous optimization approach in which all processes, rules and regulations will be constantly reviewed and where necessary adopted and therefore improved.
